

Clear and fast!

The call is perfectly clear when it comes through for fire, police, ambulance or other emergency aid...and it comes fast so you can respond sooner. It's done with Econolite's Radio Call Box System, the wireless system with aerospace technology built into

it; all solid state circuits and modular construction. Each box automatically tests itself every day. The system offers five digits, nine messages and nine auxiliaries. Power source is long life, rechargeable batteries with optional solar cell charging.

The Econolite Radio Call Box System is already in use in several U.S. cities. If you are planning call boxes for your community, investigate Econolite. Write today for more information. Econolite, 3360 E. La Palma Ave., Anaheim, California 92806.
