

Caltrans E Battery Backup System Cabinets

Econolite's Battery Backup System (BBS) cabinets are NEMA 3R-rated to withstand harsh environments and are built to last. The cabinet enclosures are designed to protect critical traffic control components against extreme temperatures, in all weather conditions.

Our complete suite of BBS cabinets are designed to fit any BBS and incorporate those systems for any intersection configuration. The customized enclosures are designed specifically for our ZincBlue2 Uninterruptible Power Supply (UPS) System.

Econolite's Caltrans E-BBS cabinet housing has been the workhorse BBS cabinet in the industry for many years. As a Caltrans Standard BBS cabinet housing, this cabinet has been widely accepted for use throughout many agencies in the country.

Key Features

- Common size for Battery Backup cabinets
- Single door access
- Inverter mounting on EIA rails
- Piggyback or standalone
